

Complete Production and Packaging Line Integration

Let our Experience and Expertise Guide your Business to Success!

Arca Automation, a joint venture business supported by Precision Automation® Company, Inc., has much more to offer than just our industry leading labeling and identification systems. Our connection with Precision Automation® enables us to provide value added services and support that set us apart from the competition.

Improve efficiency, increase throughput and reduce downtime with our complete line solutions:

- Our resources include a 45,000 square foot, fully tooled machine shop and high bay assembly area.
- Our **Integrated Conveyor Solutions** division is a distributor and integrator of the industry's premier conveyor equipment.
- **Controls** are our specialty! Our engineers will design and implement a system programmed for your specific application!

From design to installation, training to support, Arca Automation is the turnkey solutions provider for your production and packaging line integration requirements.
